About the Program

➤ **Program Background**

- Central Autonomous Bodies are set up by an Act of the Parliament. They are intended to perform certain specified services of public utility or to execute certain programs and policies of the government.
- The committee setup by the government suggested the standard or model format for accounts and accounting reports to be adopted by all central autonomous organisations. This was intended to bringing clarity, transparency and simplicity in the presentation of accounts. The uniformity in accounts and reporting is useful in performance evaluation, comparison (inter and intra AB) and assessment of achievements of socio-economic objectives of the Autonomous Body as well as those of the government.
